

OVERHAUL YOUR GARDEN FOR SPRING

Welcome to London Garden Designer, a friendly, personalised company set up by qualified and experienced garden designer Sara Jane Rothwell.

The London based design practice was established in 2002, where their portfolio of work ranges from small domestic courtyards, roof terraces and gardens, to full-scale rural landscapes throughout the UK and Europe. They also collaborate regularly with property developers, restaurants and architects to produce Landscape plans for large scale developments and new builds. They pride themselves on the good working relationships they establish and maintain with their clients.

“My previous career as a film set designer and my passion for architecture, materials and textures has informed the way we design as a studio”

With an emphasis on quality and detail, London Garden Designer work with you to create a distinctive, imaginative yet practical garden to suit your needs and budget, listening carefully to your requirements, ideas and wishes. The distinctive style of their gardens is very much reflective of their close working relationship with the client, ranging from classic to contemporary.

“My previous career as a film set designer and my passion for architecture, materials and textures has informed the way we design as a studio, allowing for imaginative spaces that are unique to each project. No client is the same, no space has the same topography, therefore it is our job to translate these ideas and practical requirements into a garden that will give you pleasure for years to come “

London Garden Designer work regularly with a select group of reputable landscape contractors who carry out our design specifications to a very

high standard. Lighting is often an integral part of the design service to complete the picture and allow for year round use. All the plants they specify are sourced from specialist nurseries whose quality is assured and for a more instant effect they can bring in mature specimens. Their intention is to ensure a smooth and seamless process through from the initial design concept to the final completion of the garden build.

In 2006, Sara Jane joined the elite few, as a fully registered member of the Society of Garden Designers, dedicated to maintaining standards of professionalism within the industry. During the last 15 years LGD has built an enviable reputation for their gardens of flair and imagination, having designed over 300 projects during this time, and are always keen for a new challenge. ■

“I feel very lucky to have found a career that I genuinely love and provides so much ongoing satisfaction to my clients.”
